SUSTAINABILITY – THE CORE OF ALMEXA'S BUSINESS

A commitment to sustainability is core to ALMEXA'S business operations, continuing to expand the use of lightweight, infinitely recyclable aluminum to meet today's demanding performance standards while reducing energy use.

ENVIRONMENTAL FOOTPRINT

As a recycler of aluminum and leading producer of flat-rolled aluminum products **ALMEXA** is constantly working to develop aluminum alloys with a low carbon footprint.

Currently, **ALMEXA** offers two types of low-carbon aluminum through their **RECYCAL™** Recycled Aluminum and **GREEN ALUM™** Low Carbon Aluminum brands.

ALMEXA buys the world's greenest Aluminum slabs from RUSAL, who has the lowest carbon footprints in the industry benefiting of its access to clean, renewable hydropower in Siberia.

A competitive differentiator and a key component of ALMEXA'S sustainability strategy.

CERTIFICATES

Industry leading quality certifications; including IATF 16949, Industria limpia, ISO 9001, Empresa Segura, Inclusive Company.
